P R O F I L E

Good at Problem Solving Skill and Self-Thought Programmer with innovative Hands-on Experience with Data Analysis using Python and MS Excel. And I have good knowledge of the process of data integration using ETL (Extract, Transform, Load) and summarize data using EDA (Exploratory Data Analysis) approach for Data Analysis. I ready to develop my skills and knowledge with any type of organization.

I N T E R N S H I P

✓ **Data Science** Internship at **Widhya**   **Jan/2021-Feb/2021**

This is a 4-week WFH internship program where I required to complete 4 gamified projects assigned by Widhya**.** Every project consists of different phases like Data Collection & Analysis, Data Manipulation, Build model, Test Model and Knowledge Evaluation.

✓ **Data Analytics** Internship at **Widhya**   **Oct/2020-Nov/2020**

This is a 4-week WFH internship program where I required to complete daily tasks to perform IPL match analysis using past dataset. Points will be given based on the perfect evaluations. Every day I have to perform analysis to predict the results about the match.

E D U C A T I O N

➢ **Bachelor of Engineering**   **2017-2021**
   SRM TRP Engineering College, Trichy
➢ **Higher Secondary Certificate**   **2017**
   Boiler Plant Boys Hr. Sec. School, Trichy
➢ **Secondary School Leaving Certificate**   **2015**
   Boiler Plant Boys Hr. Sec. School, Trichy
